Building on the growing interest in its Pockets of Innovation Series, Contact North | Contact Nord is launching Sharing Innovation: The Ontario Pockets of Innovation Webinar Series to showcase the ground-breaking innovative work in online learning taking place at Ontario's 24 public colleges and 22 public universities.

DEMONSTRATION OF YORK UNIVERSITY'S SPARK, A VIRTUAL LEARNING COMMONS

In this 45-minute webinar Adam Taves, Research and Instruction Librarian, and Sarah Coysh, E-Learning Librarian will:

1. Demonstrate how SPARK, A Virtual Learning Commons helps students with their research, writing, and learning skills.
2. Discuss how you can use and adapt their freely available tool.
3. Answer your questions.

Pockets of Innovation Series

Ontario is a hotbed of online learning innovation.

Through Contact North | Contact Nord's Pockets of Innovation Series, Ontario's 24 public colleges and 22 public universities are showcasing and sharing their 90 plus innovations in ground-breaking tools, killer apps, and best practices all focused on radically improving the learning experience for students.

They are creating the next generation of online learning.

Pockets of Innovation

Printer-friendly version

On college and university campuses across Ontario, faculty and instructors are exploring how emerging technologies and online tools can improve the learning experience for students. In this growing series, Contact North | Contact Nord features projects that have three specific characteristics:

- They represent a new approach
- They support students
- The developers are prepared to share what they've learned and the challenges they encountered with other public universities and colleges in Ontario

Choose a category:

- Faculty Development**
Read about best practices in training and development that enable faculty to introduce and enhance online and hybrid learning for their students.
- Hybrid Learning**
Discover best practices in combining classroom and online learning, as well as some of their educational benefits and challenges.
- Institutional Change**
Explore how colleges and universities are introducing online and hybrid learning- and changing how learning is delivered.
- Online Courses**
Explore the diversity of best practices in the development and teaching of online courses and the preparation and integration of learning resources.
- Online Programs**
Investigate best practices in fully online programs, pedagogy, core components, educational effectiveness, and challenges.
- Open Educational Resources**
Discover resources ready for your use, with stories on how they were developed and tested to ensure learning effectiveness.
- Partnership Opportunities**
Read about exciting online projects for which colleges and universities are actively seeking development partners.
- Technology Leaders**
Peruse stories on the development of systems, software, and apps for more engaging and effective online learning.
