

HOW YOU WILL LEARN IN 2030? IMAGINE THE FUTURE!

In an October 2022 survey, 118 students from across Ontario using Contact North | Contact Nord's services imagined how they will learn in 2030.

The students, taking online programs and courses from Ontario's public colleges, universities and Indigenous institutes, provided the following responses.

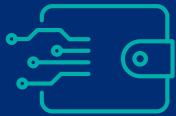

Ontario 

Contact North | Contact Nord is funded by the Government of Ontario

contactnorth.ca

95%

Want Ontario- and Canada-wide credit **transfer and recognition** with their credits stored in an **Ewallet**, including their demonstrated competency and skills (e.g., work experience, project reports).

87%

Want the **choice** to write a challenge exam for credit at any time.

84%

Prefer a **hybrid, flexible, on-demand** post-secondary learning system making extensive use of technology to support flexible learning and access.

82%

Feel **assessment on demand** would be an improvement on the current approaches to assessment.

61%

Chose **24/7 human advice** when asked to choose their top three ways of finding program information, followed by connecting via **social media** (50%), **directly** with an institution (50%) and through the use of **AI advising** (42%).

57%

Feel they **have the skills and technologies to learn** in flexible, technology supported programs.

39%

Prefer **on-demand study** over scheduled classes and want to choose their time for labs or other on-campus classes.

29%

Would like to **design their own diploma or degree** rather than following a set program.

15%

Flag having **limited access** to the technologies needed to learn in flexible, technology supported programs.

9%

Want to attend **regularly scheduled face-to-face** classes, labs, studios, or workshops despite having the option to attend at their preferred location.
