SmART Smartphone Accommodation Resource Toolbox

Getting to know you- Lets do the poll

Do you use/create video in your teaching learning ?

Do you ask your students to use/create their smartphone in teaching/learning?

Principles Guides Us

- Peer feedback
- Provides possibilities within an assignment
- Actively involve students in assignment design
- Create a community of learners
- Digital citizenship and accountability
- Solving a problem together–problem-based learning
- Active experiential learning
- Watch and re watch

What is SmART?

THE RESOURCES

Video Production

Video Feedback

Technique Illustration

Digital Citizenship

Case Study 1

You are a university student and you missed the performance test in one of your skill-based courses. Your professor wants you to submit a video recording of yourself performing the skill to accommodate you. Where do you start?

Case Study 2

You are a new professor and you are teaching a skill-based course. You have given them a video making assignment and want to grade them and give good feedback. What do you do?

Case Study 3

You are a nursing student who needs to record yourself performing a skill on a mock patient to submit to your professor. Your friend agrees but is concerned about this video getting lost or going public. What do you do?
