

# I Know You

HOW TO IMPROVE AND PROMOTE  
STUDENT ENGAGEMENT IN THE  
ONLINE CLASSROOM

Presented by: Amy M. Sloan, EdD

# **Dr. Amy M. Sloan, EdD**

**Full-Time Lecturer & Lead Faculty,  
Baylor University**

EdD in Learning & Organizational  
Change Program

# Key Takeaways

## Defining Student Engagement

Why student engagement is a critical variable in student success and what this means for course design and delivery

## The 5Cs

The 5Cs of student engagement: connection, consistency, content, community, and compassion

## Practical Examples

Examples of effective student engagement

## Pitfalls

The pitfalls of designs for engagement and the importance of tying active learning to learning outcomes

# Agenda

## Our Key Talking Points

- **Known Challenges**
- **Factors to Consider**
- **Keys to Student Support**
- **Connection**

- **Consistency**
- **Content**
- **Community**
- **Compassion**

# Known Challenges

## **Retention in online classrooms & programs**

Online learning often has lower retention than traditional F2F delivery approaches (Muljana & Luo, 2019)

## **1st Year Retention**

Within online learning, the biggest retention challenges occur within the first year (Korstange, Hall, Holcomb & Jackson, 2020)

## **Compounding factors intersecting together**

Student factors, course & program factors, and environmental factors (Xavier & Menses, 2020)

# Factors to Consider

**Where is your course situated in the program?**

**Is their whole program online or just this class?**

**How acclimated are they to the online classroom?**

**Do they know the other students taking the class?**

**Are your students non-traditional or traditional?**

# 5 Keys to supporting students in online classrooms

**CONNECTION**

**CONSISTENCY**

**CONTENT**

**COMMUNITY**

**COMPASSION**

# Can we connect?

- University
- Program
- Course
- Faculty
- Staff

DO WE HAVE A

# BAD CONNECTION?

We need to create a consistency of experience across courses and units.

- Ease of accessibility
- Consistency of experience across weeks, units, courses
- Consistency of terminology
- Intuitive technology

# IT WAS AN INSTANT CONNECTION

## *Connecting to Content*

-  Carefully level online courses
-  Create chunkable & easily consumable content
-  Ensure relevance of content
-  Offer application opportunities

# It's a Community Affair

**Fostering learning through student-to-student engagement**

- Avoid potentially isolating effects of digital learning
- Understand community chasms for disadvantaged college students (Morton, 2019)
- Create & establish a community of peers
- Use digital tools to foster community

# **We're here to support you**

- Be understanding of shifting priorities
- Know that compassion is critical
- Understand that compassion and rigor can & should go hand in hand
- Move beyond empathy to support

# Key Takeaways

## Defining Student Engagement
